

SUMMARY

As a full-stack web developer with expertise in both front-end and back-end development, I am committed to delivering high-quality, scalable solutions. With a passion for clean code and intuitive user interfaces, I specialize in React and Rails, and have a proven track record of delivering robust web applications. Beyond technical skills, I bring a strong focus on collaboration and effective communication to every project. I am always eager to learn and adapt to new technologies and best practices, and am excited to work with a team of like-minded professionals to bring innovative solutions to life.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3, Bootstrap, Tailwind.

Back-End: Ruby, Ruby on Rails, PostgreSQL, RESTful APIs.

Testing: Jest, RSpec, Capybara.

Deployment: Google Firebase, Netlify, Heroku.

Tools & Methods: Git, Gitflow, Mobile/Responsive Development, WordPress.

Professional: Remote Pair-Programming, Teamwork, Mentoring, Time Management, Leadership.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer

Remote
September 2019 – Present

MotoMate: MotoMate is a web application for managing/booking motorcycles.

- Built a web application for managing and booking motorcycles using React, Redux, Ruby on Rails, and PostgreSQL, showcasing technical proficiency in front-end and back-end development.
- Collaborated with team members to design and implement new features, demonstrating strong communication and teamwork skills.

Crypto Market: Crypto Market is a SPA that allows users to check live prices of cryptocurrencies.

- Developed a single-page application that allows users to check live prices of cryptocurrencies, showcasing technical proficiency in React and Redux.
- Worked independently to debug and troubleshoot issues, demonstrating problem-solving and self-management skills.

Kitaplardanlanlamayanadam: A website with daily content updates for book reviews.

- Developed a website for book reviews with daily content updates using Wordpress and CSS3, demonstrating expertise in web design and programming.
- Demonstrating self-management and attention to detail while working independently to ensure client needs are satisfied.

MICROVERSE

Mentor (Volunteer)

Remote
September 2022 – December 2022

- Mentored an average of 2 junior web developers per week, providing technical support through code reviews and one-on-one coaching sessions.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation, resulting in all of the students I mentored successfully continuing the program after receiving my guidance on goal setting and time management strategies.

FREELANCE

Remote

Video Editor

April 2020 – Present

- Collaborated with clients to understand their vision and goals for their video projects, resulting in a 100% client satisfaction rate.
- Utilized industry-standard software tools, such as Adobe Premiere, Final Cut Pro, and After Effects, to create high-quality videos that met the client's specifications and requirements.
- Created visually engaging and informative videos by incorporating infographics, custom intro/outro sequences, and carefully selected background music.

FREELANCE

Remote

Web Designer

September 2019 – Present

- Used techs and tools like WordPress, JavaScript, and CSS. Built 3 websites for professional and personal use.
- Designed visually appealing and user-friendly websites that met the client's needs and requirements, resulting in a 50% increase in website traffic for one client.
- Utilize responsive design principles to ensure that websites are optimized for viewing on all devices, including desktops, tablets, and mobile phones.

HUSH ROOFTOP

Bar Manager

October 2017 – October 2019

- Controlled the bar's inventory to ensure it was well-stocked. Maintained budget and monitored costs.
- Created drink and food menus. Tracking customer behavior and sales.

DOMINO'S

Restaurant Manager

September 2012 - October 2017

- Coordinated daily restaurant management operations. Delivered superior food and beverage service and maximized customer satisfaction. Responded efficiently and accurately to restaurant customer complaints.
- Trained, supervised, and mentored team members to ensure they provide excellent customer service and maintained a high level of professionalism.
- Implemented and enforced company policies and procedures to ensure the efficient operation of the restaurant and compliance with health and safety regulations.

EDUCATION

MICROVERSE

August 2022 – March 2023

Remote Full Stack Web Development Program, Full Time

- Spent over 1200 hours studying and mastering algorithms, data structures, and full-stack programming while concurrently working on project development with Ruby on Rails, JavaScript, React, and Redux.
- Acquired expertise in remote pair programming by utilizing GitHub, an industry-standard gitflow, and daily standups as a means of communicating and collaborating with remote developers located in other countries.

ANADOLU UNIVERSITY

September 2021 – August 2023

Associate's Degree, Web Design and Coding

- At Anadolu University, I am pursuing an Associate's Degree in Web Design and Coding. Throughout my coursework, I have gained a solid foundation in web development and design principles, including content management systems, web publishing, and internet-based programming. I have also developed expertise in visual web design, including web graphics and typography. Additionally, I have taken courses in web ethics, copyright law, and marketing, which have provided me with a well-rounded understanding of the digital landscape. Some of the classes I have taken include "Learning Management Systems," "Internet-Based Programming," "Web Graphic Design," "Information Society and E-Government," and "Web Literacy." With this diverse set of skills and knowledge, I am confident in my ability to tackle complex web development projects and deliver high-quality results.
